PROFILE

My name is Grigor and I am a candidate for the position of a front-end developer. Over the past 10 years, I have worked in my specialty as a Lawyer in various organizations and have achieved great success there. The front-end became interested in development when finally came to the conclusion that

- Html
- Css
- JavaScript
- Web designer & UI/UX
- Figma
- Photoshop

EXPERIENCE

UI/UX DESIGN

From 2020 to percent | Freelance

Development of interface concepts; Designing posts for instagram; Creating presentations in google slides; Analysis of competitor products and UX and UI trends; Designing interfaces for Web, iOS, and Android; Development of interactive prototypes and layouts in Figma; Testing of interfaces, their optimization and refinement.

UI/UX DESIGN

From 09/2021 to 12/2021 | Web-Focus

Development of interface concepts; Collaboration with the educational platform YaClass and development of the landing page; Designing posts for instagram; Creating presentations in google slides; Analysis of competitor products and UX and UI trends; Designing interfaces for Web, iOS, and Android; Development of interactive prototypes and layouts in Figma; Testing of interfaces, their optimization and refinement.

QA ENGINEER

From 12/2021 to percent | Saber Interactive

My task as a tester is to check all possible ways of interacting with the game. Even those that the developer could not expect and foresee. Try to imagine yourself in the place of the most curious user and explore all the most hidden corners of the game world.
